Relevant Experience

Senior Full Stack Developer • Affinity Capital Corp Feb 2023 – Present
Mid-Level Full Stack Developer Jan 2021 – Feb 2023
Full Stack Developer Jan 2020 – Jan 2021

- Develop and styled web apps for clients and agents to invest, redeem, fund switch and track investment, anytime and anywhere. Including the desktop app for admin to manage customer data, transactions and reports
- Work alongside creative directors to lead the research, development, and architecture of technical solutions to fulfill business requirements
- Collaborate with designers, project managers, and other seniors to transform creative concepts into production realities for clients and stakeholders
- Performed quality assurance tests on various sites to ensure cross browser compatibility and mobile responsiveness

Selected Projects

Affinity Website
Build a React.js website application for Affinity Capital Corp a SEC-Licensed Mutual Fund Distributor that received its license in October 2019.

Nvestmo
Build a client portal for Affinity Capital Corp using React.js framework. User can invest, redeem, fund switch and track their investment.

Salezmo
Build a agent/CISol website for Affinity Capital Corp to manage their business and client investment.

Registry (ADMIN)
Developed an admin system for Affinity Capital Corp to manage agent and customer registrations, receive transaction data from portals, integrate BPI payments, and generate exportable reports (AUM, Settlements, Sales Reports). The system also features CTR and STR reporting to AMLC and agent commission generation.

Payroll System
Built a payroll management system to automate employee compensation, including salary calculations, deductions, and tax computations. The system generates pay slips, tracks attendance, and provides exportable reports for auditing and compliance. It also integrates with government agencies for tax filings and contribution submissions.

Skills

Programming Languages
JavaScript, TypeScript.

Libraries & Frameworks
React, Next.js, Gatsby, React Native, Tailwind, Material UI, AntD, Node.js, Strapi, Nginx, Cypress, Jest, Electron.js.
